

CLERK OF WORKS

Landscape
Institute
Registered practice

As a clerk of works, we oversee the quality and safety of work on the construction site, making sure that building plans and specifications are being followed correctly.

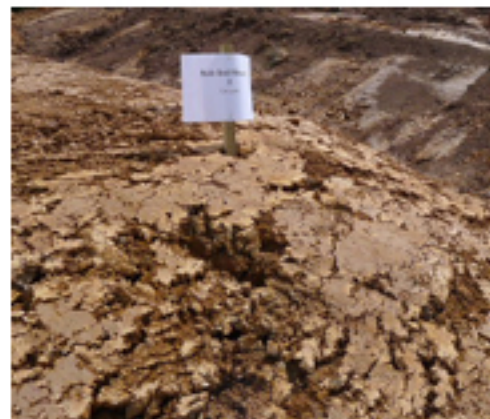

Our duties would include:

Performing regular inspections of the work on site and comparing completed work with drawings and specifications, measuring and sampling building materials to check their quality, recording results.

Identifying defects and suggesting ways to correct them.

Liaising with other construction staff, such as contractors, engineers and surveyors.

Monitoring and reporting progress to construction managers, architects and clients.

Services

- Clerk of Works to the employer / client
- Monitoring and reporting on landscape works to the main contractor
- Post construction surveys and reviews
- Establishment inspections during Rectification period

Select Projects

- Cabot Circus, Bristol
- South Gloucestershire HQ, Yate
